

Flexible. Efficient. Tough!

The XA(T)S 400 compressor range with PACE technology.
Two models - multiple possibilities (340-440 cfm)

Sustainable Productivity

Atlas Copco

You need *PACE... To win the RACE!*

The skillfully versatile XA(T)S 400 range offers you two models with multiple possibilities. Thanks to its intuitive PACE system (Pressure Adjusted thru Cognitive Electronics) the new 400 cfm models give you the most options from a single compressor. This pioneering technology enables multiple pressure and flow settings, ensuring you match air flow and pressure to your application needs.

Optimize your fleet investment, improve utilization and get a higher return on investment. If you are using multiple machines to cover flow demands between 340-440 cfm and pressure ranges from 100-200 psi, then now is the time to stop.

The 400 cfm models also feature our legendary air element together with a John Deere Stage IV Engine. Ensuring higher efficiency, longer service intervals, unmatched reliability, increased lifetime and the lowest cost of ownership.

STANDARD FEATURES

SERVICE LIFE

The 400 cfm range extends the compressor oil service interval to 1000 hours or once every two years. Reduced service intervention and longer life of consumables reduces total cost of operation and increases availability.

XC2003 CONTROLLER

The intuitive XC2003 controller keeps track of your compressor's utilization and prompts for planned service interventions. Service can be performed from a single side.

ENGINE PERFORMANCE

The range is powered by a 4-cylindere John Deere Tier Final engine, reducing the emission of NOx and particulate matter to near zero levels.

EASY TO MOVE

Lightweight and compact, both models can be towed. The compressor is mounted on a single axle, enhancing its maneuverability on site.

LOW FUEL CONSUMPTION

Combining the Atlas Copco screw element with a John Deere diesel engine, we deliver a range that is best in class for fuel economy.

ROBUST DESIGN

The range was tested both in lab and field conditions to ensure optimal performance. It's designed to withstand the toughest working conditions. The updated HardHat canopy is our toughest, most aesthetically pleasing canopy to date. It's corrosion free and needs no painting or dent repair.

PACE™

Pressure Adjusted thru Cognitive Electronics

- Pressure can be set with the XC2003 controller in 3 simple steps.
- Pressure can be adjusted within increments of 1 psi.
- Toggle between the pressure presets in a single click.
